DET-RARB Radio Assistance Required Button

Suitable for doctor's surgeries, shops, schools and other commercial buildings, this radio assistance required button sounds the alert for local assistance

Flexibility is at the forefront of the design ensuring practicality in every environment. The DET-RARB can be programmed to suit the requirements of the business or end user either by activating a discreet signal by utilising log only zone types and chime, whilst programming the radio assistance required button as a HUA will provide a more urgent alert.
